

ABOUT THE CLIENT

Name of school:	St Nicholas Chantry C of E VC Primary
Town:	Clevedon, Somerset
LEA/Affiliation:	Church of England, voluntary controlled school
Number of pupils:	380
Location:	School Hall
Finance option:	Purchased
Main use:	Assemblies, curriculum and extra-curricular

BACKGROUND

St Nicholas Chantry is a rapidly expanding Primary School that needed a new audio-visual system – OpusStudio was the product of choice.

In December 2016 St Nicholas Chantry started to use the new system for assemblies to play music, display song words, and show video clips. In addition, staff increasingly began to use it to enrich the curriculum.

Peter Treasure-Smith, Headteacher, explains: “Even those of us who are self-confessed technophobes are using it on a regular basis after only an hour’s training. Staff have quickly grown in confidence with it and we are really starting to explore its full potential.”

DECISION-MAKING

Staff recognised that OpusStudio would open up a range of new opportunities and enable pupils and teachers to use their imagination and creativity.

Dominic Cooper, Head of Year 6, says: “Opus expanded the curriculum opportunities in our school hall. It goes way beyond

the small scale digital and audio systems available within a classroom.”

THE OPUS EXPERIENCE

OpusStudio is simple to use and the investment is producing unexpected financial benefits.

The system has also helped to save money, as Dominic explains: “The PTA recently used it for the school Christmas disco. Normally they hire in a DJ but, because Opus has a lighting rig with it – which can be pre-set – one of the parents was able to run the whole disco from his phone which saved us about £150.”

Dominic Copper: "It looks a bit like the Starship Enterprise and it's really exciting to use. The functions seem endless and we keep finding new applications. Year 6 is currently doing a project on World War 2 and we've used the system for a mini cinema."

FEATURES AND BENEFITS

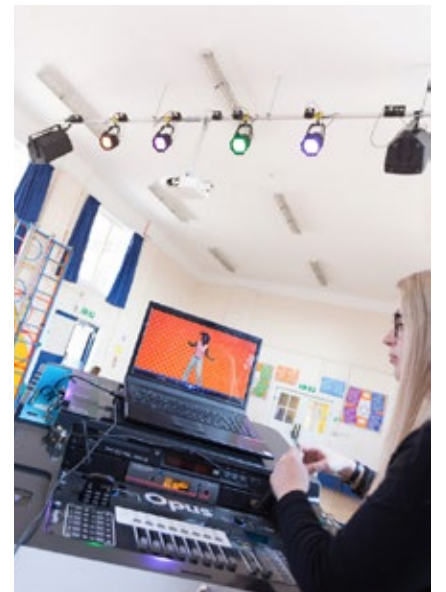

- Always ready to use
Turn it on and teach
- Easy to control
Simple to use – anyone can learn to use it
- Video projection
Easy to connect and view video
- Simple sound connectivity
Fast access to things you need
- Colour changing LED lighting
Enhances every performance
- Technical helpline
Peace of mind

MAKING A DIFFERENCE - FOR TEACHERS, STUDENTS AND AUDIENCES

OpusStudio is showcasing untapped creativity and enriching the curriculum, transforming the teaching space.

Peter concludes: "This is by far and away the most user-friendly system that we could find on the market. I am very excited that our children now have the opportunity to be creative in an entirely new way, and can also present their learning to their parents as a group. Overall, it has helped to enrich the curriculum, especially in PE, drama, history and RE. It's transformed the teaching space." He adds: "I'd also be quite happy for children to be trained up on it because it isn't fragile."
