

THE BRAINS FOR YOUR SIMPLE SYSTEM...

Control console at the heart of OpusQuintet technology

Opus

OpusHub™

A white, floor-standing control system unit with its top and side doors open. The top door reveals a rack of electronic components. The side door is open to the right, showing internal shelves with cables and a microphone holder. A yellow circle with the number '1' is positioned in the center of the unit's front panel.

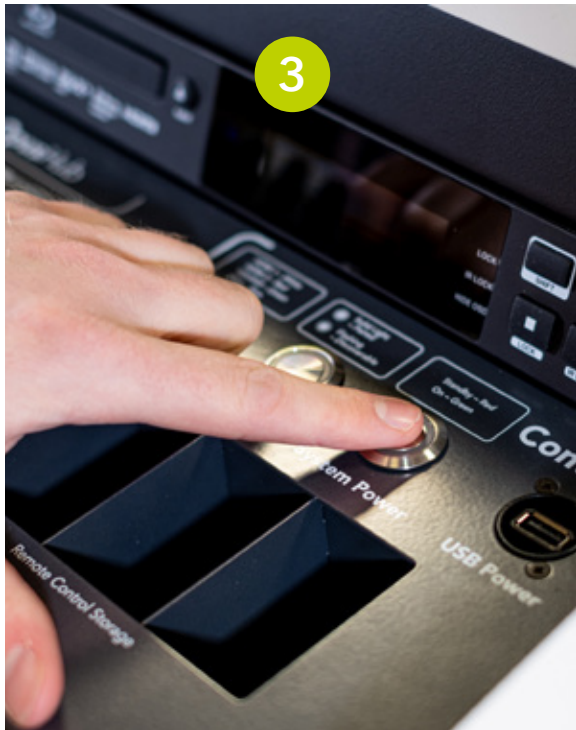

1

OpusHub™

At the centre of the **OpusQuintet** is the **OpusHub** a presentation control system that provides quick, user friendly control of the video, sound and lighting elements of the system.

A close-up view of the interior of the control system unit. A white plastic holder is mounted on the side door, holding a black microphone. The holder has several circular cutouts. In the background, shelves hold various cables and a green power supply unit. A yellow circle with the number '2' is positioned next to the microphone holder.

2

A close-up view of the control panel of the OpusHub. A hand is shown pressing a red button labeled 'System Power'. The panel features various controls, including a 'Remote Control Storage' slot, a 'USB Power' port, and a 'Control' section with buttons for 'Lock', 'Unlock', 'Mute', and 'Unmute'. A yellow circle with the number '3' is positioned above the 'System Power' button.
